July 2026

THE WATER COOLER

The PEPM Group is honored to have received the 2026 Oklahoma Governor's Award for Excellence in Exporting for the second consecutive year during a special presentation in Tulsa. The award was presented by Tulsa Mayor Monroe Nichols, Deputy Mayor Krystal Reyes, and U.S. Commercial Service Oklahoma Director Marcus Verner. Receiving this recognition for a second straight year is especially meaningful. In the award's 43-year history, no company had previously earned this distinction in consecutive years. This achievement reflects our team's commitment to supporting our clients' global growth, expanding export opportunities, and contributing to Oklahoma's economy by helping create jobs and strengthening international business relationships. Most importantly, this recognition would not be possible without the trust of our clients, the support of our partners, and the dedication of our employees. As we celebrate this achievement, we're already looking ahead with the goal of earning this honor for a third consecutive year in 2027.

The PEPM Group started work on a pressure vessel project this month, supporting our clients with pressure vessel design, engineering review, ASME Sec VIII Div 1 code calculations, and PE stamping services. Our mechanical engineering team understands that pressure vessel projects require careful attention to safety, code compliance, process conditions, materials, fabrication details, and long-term reliability. PEPM Group is an award-winning and fast-growing engineering firm specializing in the food and beverage, energy, oil and gas, data center, and industrial sectors. PEPM is licensed as a PE and/or SE firm in 49 states and holds P.Eng licensure in multiple Canadian provinces.

WE ARE HIRING!

For a long-term fulfilling career, a caring, encouraging, and respectful workplace, contact PEPM. Apply today at www.pepmgroup.com/careers

- **Senior Mechanical Engineer** (Fayetteville, AR), 10+ years of proven mechanical, plumbing, and HVAC engineering and design experience in the food and beverage facilities, strong understanding of USDA, FDA, OSHA, ASHRAE, and ASME codes, standards, and guidelines, strong understanding of specifications and excellent attention to detail, B.S. in Mechanical Engineering, PE in Mechanical Engineering
- **Senior Structural Engineer** (Fayetteville, AR or Tulsa, OK), 10+ years of structural engineering work in industrial engineering, 10+ years of field experience and building design, experience in food processing facility design, experience in managing project deliverables and meeting exceeding expectations, managing client relations, proficient in STAAD or RISA, B.S. in Civil or Structural Engineering is required, PE license required
- **Project Engineer, Project Manager** (Tulsa, OK), 5+ years of proven work experience in engineering, oil and gas and energy business, 5+ years of proven work experience in project management in engineering, construction or fabrication, excellent time management skills to meet promised schedules, organization, planning skills, and attention to detail are a must, PE and/or PMP highly preferred, B.S. in mechanical engineering or related engineering field

NEW ADDITIONS TO THE PEPM TEAM!

The PEPM Group is excited to welcome Rodney Carter, Lead Designer/Project Engineer, and Kishor Jaju, Principal Structural Engineer, to our growing team!

Rodney holds a BS in Industrial management and brings more than 24 years of engineering design and project leadership experience, with a strong background in EPC project execution, gas processing facilities, energy infrastructure, and multidisciplinary engineering.

Kishor has earned a B.S. in Civil Engineering and an M.S. in Structural Engineering. He brings more than 20 years of civil and structural engineering experience across the oil and gas, refinery, tank farm, hydrogen, air separation, fertilizer, chemical and petrochemical, industrial, commercial, and residential sectors.

We are excited to welcome Rodney and Kishor to the PEPM team and look forward to the expertise and leadership they will bring to our clients and projects. Welcome aboard!
